Important Information Regarding Your Water Meter: Gloversville Water Department personnel will be in your area soon installing new water meters. They will have a water department picture ID badge and will be in a water department vehicle that is clearly marked with our department logo on the sides of the vehicle. If you are not home when they come to replace your meter, they will leave a door hanger stating that they were there and to call the Water Department to schedule an appointment to have your water meter replaced. Replacing your meter takes less than 5 minutes. Thank you in advance for your cooperation, it is greatly appreciated!
